Health Information Technology: Help or Hindrance?

Has information technology helped you

to take better care of your patients? Do you wonder how it could?

[Click here](#) to read a

new blog post by Dr. Michael Malone from Aurora Health Care in Wisconsin. Dr. Malone discusses the **ACE Tracker**, a tool they developed that uses information that's already in each patient's electronic medical record to **help identify those at risk** for developing common geriatric problems.

Just One More Week – 20% Off Medication and Pain Management Courses!

Technology can also make it easier to improve your skills. And CHAMP's **online Medication and Pain Management courses** for frontline managers are now available at a **20% discount**. Learn evidence-based practices that make your team's work **easier and more effective**, and earn CE hours, wherever you can use a computer. But remember - these special prices are only available **through September 30th**. Click on the course name to learn more and sign-up!
